

SOA K3

Hair Removal & Skin Rejuvenation

Technology	Diode Laser	Screen	10.1 inch Industrial Capacitive Touch Screen
Wavelength	755/808/940/1064nm	Laser Power	400W
Spot Size	12*12mm	Voltage	AC220V 50Hz
Handpiece	Hair Removal Handpiece Calming	Power	≤750W
Fluence	2-72J/cm ²	Cooling System	TEC Electronics Cooling +Variable Frequency Compressor Cooling-Air Cooling
Frequency	1-10Hz	Working Temperature	15-30°C
Pulse Width	1-400ms	Dimension/G.W	Main unit: 49*43*23cm, 22.15kg Trolley: 55.9*42*10.7cm, 20kg

Hair Removal Skin Rejuvenation

Diode Laser

RoHS

LASER HAIR REMOVAL MACHINE LASER
2 Years Warranty Limitless Shot
LASESHARE REMOVAL MACHINE LASER
Continuously Work for 24 Hours

Skin Rejuvenation
Hair Removal

755nm | 808nm | 940nm | 1064nm

Four different wavelengths
act on different depths of the skin

Finesse Adapter

Precise effect on small/hidden areas,
such as hairline, eyebrows, intimate
hair and ears' hair removal etc.

Smart Trolley

Press self-locking storage box
Press to eject lightly
Convenient to storage the finesse adapter

OLED Screen

high power constant temperature
control system
